

How It Works for Homeschool

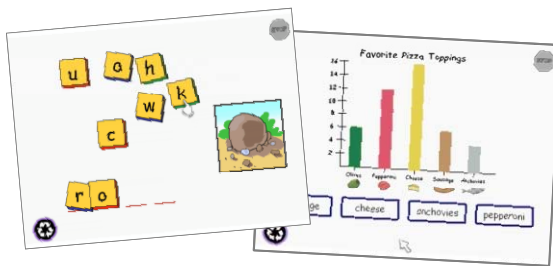

Children's Progress Academic Assessment (CPAA)
in English [PK-3] & Spanish (for English-language learners) [PK-2]

Step 1

ASSESS

Children complete the assessment independently on the computer.

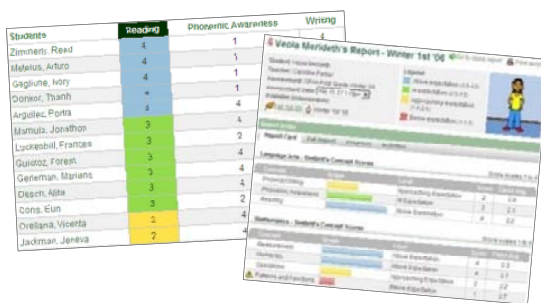

- Scenarios and feedback are engaging and developmentally appropriate
- Quick and easy to administer (15-30 min, 3-5 times/yr)
- Level of difficulty automatically adapts to performance

Step 2

REPORT

Educators and parents gain instant access to interactive reports.

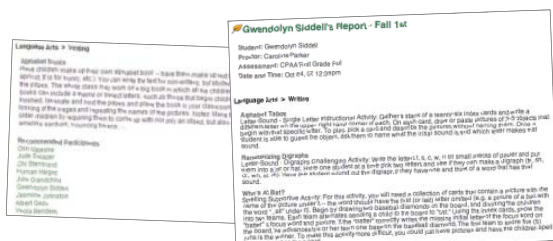

- Aligned to state and Common Core standards
- Easy to use and immediately available online
- Built-in tools help parents monitor progress and plan next steps with just a few clicks: find trouble areas, create targeted lesson plans and MORE!

Step 3

TEACH

Educators and parents can get started right away. Suggested activities are included to help make the transition from data to instruction.

- Get specific feedback to guide instruction as soon as students complete the assessment
- Use suggested activities
